

Roland Thompson
Co-Founder
Thompson & Blackstone, Inc.

Roland has spent his career applying Biblical principles of leadership and decision-making to business. His experience spans from startups to Fortune 500 companies operating in the United States, Europe, and Australia.

Roland currently co-operates Thompson & Blackstone, Inc., a business think tank and investment evaluation platform. His background includes a mix of entrepreneurship, business analysis, engineering, and design. He was also the co-founder of both Frontline Education and CF InFlight, LLP. Frontline Education is an Ed-Tech platform used by most school districts in America, and CF Inflight engineered and introduced the Emmy award-winning Skycam (www.skycam.tv) to the sports broadcasting world (Skycam is used all over the world and is featured on almost all major market American football broadcasts, including Monday Night Football). He has a tremendous amount of experience analyzing new markets and establishing and growing businesses. Prior to these ventures, he spent ten years building an IT services organization focused on delivering services and software for stock and currency trading applications, as well as developing mobile technology solutions for Fortune 500 companies.

Roland lives in West Chester, Pennsylvania, with his wife, Lisa, and has three children: Christopher, Stephen, and Alicia. Roland is active in his church and has served as a deacon, the chair of deacons, a Sunday school teacher, and a youth worker.

Roland also sits on various foundations and educational institution boards. He also enjoys mentoring young Christian entrepreneurs as well as flying.
