Faith Baptist Bible College Education Program Licensure Disclosure

Faith Baptist Bible College prepares students for certification and licensure within the state of Iowa. Students may want to attain certification within a different state according to their residence, and each state may vary in its licensure requirements. Below are the determinations Faith Baptist Bible College has found for each state in which our education program meets the educational requirements for professional licensure. Three options are indicated, meeting the certification requirements, not meeting the requirements, or unknown, meaning no determination has been made. Faith Baptist Bible College is accredited by the Higher Learning Commission and the Association of Biblical Higher Education.

Pursuant to 34 C.F.R. § 600.9, Faith Baptist Bible College and Theological Seminary is required to disclose consumer information regarding our curricular programs that “foreseeably lead” to careers requiring state licensure. This regulation requires us to determine whether or not our licensure-related programs satisfy the educational requirements for professional licensure in the states where our prospective students are located.

Accordingly, we are required to disclose for each program that leads to licensure whether:

- (1) the program meets the educational requirements for professional licensure in a specific state;
- (2) the program does not meet the educational requirements for professional licensure in a specific state; or
- (3) we have not determined whether our program meets a particular state’s educational requirements.

Because licensing requirements differ dramatically by occupational category as well as by state, we encourage prospective students to check their state legislative codes to verify the information presented here. We will strive to update this information on an annual basis by July 1 of each year.

EDUCATION
